

Designed to Work  
with GlideScope  
Video Laryngoscopes

## GlideRite Stylets—Enabling Quick Intubations

Typical airway view

### Designed to Work Together

GlideRite® Stylets are designed to complement angulated GlideScope® video laryngoscopes and enable quick placement of ET Tubes.

- Rigid design enhances Endotracheal Tube control for fast intubation
- Preformed to match the shape of GlideScope angulated blades
- Reusable and single-use options
- Options available to cover a broad range of patients and procedures
- Available in packs of 10

## Single-use Stylets

Packaged for immediate use.

### GlideRite Single-use Stylet – Small

Preformed, rigid biocompatible plastic

- Designed for use in ET Tubes I.D. 3.0 to 4.0
- Adjustable stopper

### GlideRite Single-use Stylet – Medium

Preformed, rigid stainless steel

- Designed for use in ET Tubes I.D. 4.5 to 5.5
- Easy to use handle design for simple ET Tube securement and stylet removal

### GlideRite Single-use Stylet – Large

Preformed, rigid stainless steel

- Designed for use in ET Tubes I.D. 6.0 and larger
- Easy to use handle design for simple ET Tube securement and stylet removal

Indicates single-use

## Reusable Stylet

Compatible with high-level disinfectants and autoclave.

### GlideRite Rigid Stylet

Preformed, rigid stainless steel

- Designed for use in ET Tubes I.D. 6.0 and larger
- Easy to use handle design for simple ET Tube securement and stylet removal
